TECHNICAL SKILLS

Testing Expertise

UI Testing, Mobile Testing (iOS/Android), API Testing, E2E Testing, Regression Testing

Languages & Frameworks

Java, TypeScript, Python, JavaScript, Playwright, Selenium, REST Assured

Tools & Platforms

Docker, CI/CD, Git, Postman, GitHub Actions, CharlesProxy/Proxyman, TestRail, JIRA, Zephyr

AI & Automation

Claude, Claude Code, AI-Assisted QA, AI-Powered Test Generation, Prompt Engineering

Trading & Analytics

MetaTrader, NinjaTrader, Interactive Brokers, Futures & Currencies Analysis

CERTIFICATIONS

- DevOps Essentials
- Web Services Testing (Foundation)
- Automated Testing (Foundation)
- Commodities Futures Trading
- Currencies Futures Trading
- BFU C License (Youth Coach)

PROFESSIONAL SUMMARY

Quality Engineer delivering reliable software for sports, financial media, health, and enterprise virtualization products. Experienced in test strategy, team mentoring, and cross-functional collaboration across US and European engineering teams. Leveraging AI-assisted development to accelerate quality delivery.

FEATURED PROJECTS

Playwright TypeScript Framework

UI and API test framework with Page Object Model, fixture injection, and live Playwright HTML report.

TypeScript | Playwright | GitHub Actions

SauceDemo Selenium Framework

E-commerce UI test automation with risk-based test selection and documented architectural decisions.

Java | Selenium | TestNG

DummyJSON API Test Framework

API test automation covering authentication and CRUD endpoints with CI/CD and live reporting.

Java | REST Assured | Allure

Quality Engineer Portfolio

Portfolio showcasing QA expertise, built with Next.js, React, and TypeScript.

Next.js | React | TypeScript

Soma Holistic Studio

Professional wellness studio website built with TypeScript and modern web technologies.

TypeScript | Next.js | React

QA Mentorship Program

Comprehensive QA training curriculum for aspiring quality engineers.

QA Process | Testing Fundamentals | Best Practices

EXPERIENCE

Software Engineer (Contributing) — Jan 2026 – Present
Bugzy.ai
- Contributing to AI-powered QA testing platform

Mentor — Oct 2025 – Jan 2026
Mentor the Young – Bulgaria
- Designed and delivered an 11-week QA mentorship program for a junior engineer
- Mentee delivered 50+ test cases, BDD scenarios, and Python automation scripts

Mobile QA Engineer — Jan 2016 – Apr 2025
Tumba Solutions
- Leading QA for Baseball, Financial Media, Cycling Performance, Self-driving cars & Health apps
- Mentored junior QA engineers and designed comprehensive testing infrastructure
- Managed crowd testing partnerships for iOS/Android device coverage

Co-founder — Feb 2012 – Dec 2015
Inozona Ltd.
- Co-founded sports analytics start-up; oversaw product vision and testing
- Built platform used by professional sports teams for performance analysis

QA Engineer — Nov 2007 – Feb 2015
VMware
- Established testing protocols for VCloud UI; aligned US and Bulgaria engineering teams
- Led cross-functional delivery for Windows VM performance monitoring solution

QA Engineer — May 2007 – Oct 2007
Sciant
- Validated ESX Server core functionality; specialized in HDD, Video & Network driver testing

EDUCATION

DevOps Essentials — Feb–Jun 2025
Pragmatic LLC

Automation QA - Java + Selenium — Mar–Jun 2021
Pragmatic LLC

Currencies & Commodities Futures Trading — Nov 2014
Trading Advantage

CCNA Course Completed — May 2006–Mar 2007
Cisco Academy "Future 21 Century"

Web Services Testing — Oct–Dec 2021
Pragmatic LLC

Spanish Language School — Jan–Mar 2019
Expanish, Buenos Aires

Teacher & Coach, U14 — Mar–Jun 2010
Bulgarian Football Union

BSc in Computer Science — 2000–2004
Plovdiv University "Paisii Hilendarski"
